**MACHINIST**

The successful candidate will be responsible for performing various manual machining operations (non CNC), to aero derivative jet engine components in accordance with OEM established methods and practices. Previous experience in the operation of horizontal lathes, vertical turret lathes, jig borers, O.D. grinders or jig grinders would be considered a strong plus. Applicant must be skilled in the use of micrometers, gages and other associated inspection equipment. Must be able to read, interpret, document data and use manufacturer's technical manuals, service bulletins and other supporting technical documents.

Equivalent to high school diploma plus additional broad specialized training in the machining trade is desired. A minimum of 5 years of relevant experience or equivalent combination of education and experience is required. NO PHONE CALLS PLEASE.

EOE/M/F/D/V
